Dedication

To

First Lieutenant, Marcus B. Boulware
Infantry, U. S. A.

Who, thru his faithful endeavors, has won a place in our hearts as a sympathetic friend, teacher and companion. We respect and love him as the finest type of a Christian gentleman.

We dedicate this second volume of our year book as a small means of expressing the esteem in which we hold him.

Student Body Emory Academy
FOREWORD

In this second volume of our year book, it has been our purpose to put in writing the remembrances of our senior year; and to make the pleasant friendships and relations in our class everlasting.

If in future years a member of our class shall turn the leaves in this book and revive the thoughts of his happy days at Emory Academy, then we will know that our work has not been in vain.

FORREST GAY, Editor-in-Chief
LEE BALLARD, Business Mgr.
GREETINGS

To the Class of 1925 and to the Student Body of Emory University Academy we present this, the second volume of the Emocad, as a representation of the Staff's faithful work found herein. May all the faults be forgotten in the pleasant memories it conveys. May these pages be as interesting to you as the work has been to us.

"Side Lights"

1925

Sept. 10—Brooks, Stones, Butlers, Churches, Potts, and all kinds of Wares are seen on the Campus which make us sure of a Merry and Gay year.

Sept. 16—Homesickness Week; many victims.

Sept. 26—Prof. Brown goes to Wesleyan.

Oct. 4—The sleep-walkers of "A" Section decide to keep their windows locked at night.

Oct. 17—The first game of football between "A" and "C" companies is won by "C" Company.

Oct. 19—The Dormitory students are delightfully entertained in the Covington homes.

Oct. 20—The Epworth Leagues have a big social.

Oct. 24—The Oxford Woman's Club gives the Academy students a social. The "Emoshow" has its first performance.

Nov. 1-30—Epidemic of Tonsilitis.

Nov. 6—"B" Company wins a hard fought game of football from "C" Company.

Nov. 11—Holiday. In the afternoon in Covington, "B" Company wins from "A" Company. Much spirit is shown.

Nov. 12-13—Belt fights between the old and new boys. Several declare their preference for standing than sitting down.

Nov. 19—"Rat Day." The Rats survive it.

Nov. 25—The social condition is improving greatly. Two socials in one night.

Nov. 27—Extra!!! Big dinner in the dormitory.

Dec. 3—Jim Shockley runs wild. Prof. "Duke," Sharpe, Jernighan, Purcell, and several others prove their ability as track material.

Dec. 15—Few wins the Fall term debate from Phi Gamma.

Dec. 17-18-19—Exams—Nightmares!!!

Peter Manning sure of getting his tin horn.

Jan. 2—School opens. Camel on the campus.

Jan. 8—Basketball practice begins.

Jan. 15-19—Rain, rain, rain.

Jan. 21—The Church disappears.

Jan. 27—Uncle Bob sings a solo in chapel.

Jan. 29—Col. Rowles on the campus. Wrapped leggings are in prominence.

Jan. 30—Big dinner for Dormitory students honoring Prof. Brown's return.

Feb. 5-6—Pictures are taken for the Annual.

Feb. 5—No lights in the Dormitories.

Feb. 6—The Faculty chairs in the chapel are found on the Armory.

Feb. 14—"A" Company beats "B" Company in a basketball game. Great spirit was shown. Two preachers engage in a friendly (?) combat.

Feb. 18—It is decided to have a fifteen minute recess at the end of the third period for mass games.

Feb. 20—Big day at Stone Mountain enjoyed by the student body.
Feb. 24—Practice for the Glee Club begins. Rare singing is heard.

Feb. 28—After many years of waiting at last "Squire" is on his way to matrimony.

Mar. 3—Horseshoe Tournament begins. Uncle Bob beats "Papa" Rees.

Mar. 6—Epidemic of flu, mumps, and spring fever.

Mar. 12-13-14—Exams begin and all engage in a rush for the coveted 7.

Mar. 13—Football and basketball lettermen given banquet.

Mar. 23—Kimbrough's love affair is getting serious.

Apr. 2—The social atmosphere of the school has been greatly improved by the organizing of the Hawk, Owl, and Lion Clubs on the campus. These have proved to be of great assets to our social life, and have helped a great deal to cause a feeling of fellowship to exist among the members of the various Clubs. The banquets, annual events of the Clubs, which are to be held shortly, are being looked forward to with much interest. Plans are being made to have big eats and great "garbs" of girls present.

Apr. 10—"Crab" loses his eraser. Much excitement until he finds it in his hand.

April 21—Uncle Bob misses connections and spills collection basket. Mad scramble for change ensues.

Apr. 30—Arnald Smith gets a catalogue from G. S. C. W.

May 5—No wonder Fred's happy. He saw "Dot" yesterday.

May 15—"Dips" in sight, however some have to use a telescope to see their deepening outline.

May 24—Commencement Sunday.

May 25—The Class of '25 departs. God bless her. All's well that ends well.

"Tuh" is one of the few who came to us anew this year and took out of the hands of several others a football letter. One of his characteristics is his gradual speech. Just give him time to whistle and he will say what he is trying to say. We will not gasp in surprise if he is one of our honor men this year. He is one of the brightest students that ever argued with "Count" or ate hash in our good "Papa's" dining room. May his future be as successful and fruitful as his life at E. U. A.

"Never take life too seriously. You'll never get out of it alive, anyway"

Charlie is the best little old basket-ball player in school. He is the spice of life at E. U. A. Charlie is small in stature; but he's right on hand when anything happens. He has made our stay at E. U. A. very pleasant and profitable.

JOE CRAWLEY

Forrest is by far the most illustrious member of the class of 1925. He has attained the highest honor attainable in the student body, that being president of the greatest student body in our fair land. Forrest, the most popular boy in school, is leaving a record behind him that will be almost impossible to surpass. We are assured of his success in any profession he may undertake.

Arthur came to us this year accompanied by several others from the burg of Unadilla. He is one of the most deserving boys among us. We all know that it is his kind that plays the game of life as he does in the game of physical strength. He is one of the few "new boys" that holds a non-coms place. We are sure that we will not be disappointed in believing that his life will be a great success.

Ben came to us in the company of one that immediately put him on a standing high above that of the average "New Boy." He arrived in this lost section with none less than the president of our student body. It is to obad Ben won't be back next year to take a hand in receiving the "New Boys," because he has surely "Had his." We are counting on Ben to make good in college as he has done here.

Carl is one of the two among us that has his better half. "Carl is our own Bud Fisher or Brewerton," because when it comes to drawing cartoons he can certainly shake a wicked pen. Carl came to us only since 'Xmas, but in this short time he has made his way into our hearts and fixed himself among a circle of friends that is ever increasing. Carl is sincere in all he does and quiet in all his ways. He has made us love him and we know that wherever he settles his fellow townsfolk will be proud to welcome him among them.

"Abe" Lincoln is quite an orator. His gift of gab along with his good line of wit has saved the day a lot of times for him. When it comes to getting up lessons "Abe" is right there. He "don't" miss. "Abe" has been with us only a year but in this short time he has made himself well known, due to his quiet but responsive personality. We are looking to you, "Abe," to show them what you can do.

Senior Class History

In the year of nineteen twenty-two about thirty-five of us as embryo freshmen made our formal bow to the school world of Emory University Academy. Very green indeed were we. Too full of sap even to make good kindling wood; but after being exposed to the sap stirring influence of History under "Uncle Bob" Paine, the flowering tendency of English under Prof. "E. Walton" Strozier, the seasoning effects of the Latin tongue under "Squire" Carlton, and the rigor of algebraic work under "Sandy" Clower. While we were not able to be classed as good timber, yet we were sizeable enough to be taken into consideration. The memorable debates held in History class, which was then along with English recited in what is now Pierce Dormitory, the efficient explanations of Algebraic problems, the unusual brightness exhibited in Latin class, and the enjoyable memories of English class are delightfully refreshing as we recall them to our memory.

On taking stock at the beginning of our sophomore year we found that while much of the standing timber had been blown down and thus lost to us yet there was sufficient additional growth to compensate our losses. Our former head, Dr. Sharpe, had been transferred to other fields of labor and with him several of his co-laborers. With our new Principal there came new personalities to inspire us in our work and cheer us on our way.

After crossing the bridge of Caesar, we came to the tangled morasses of junior year. We found that the many of our comrades had fallen by the way, new recruits filled the ranks. Again we marched forward fully persuaded that all difficulties of junior year would soon be overcome. After "American Lit." had been drilled into our heads by "Pomp," Plane Geom. by "Count," Cicero by "Squire," French by "Bumble Beasley," Spanish by "Duke," and History by "Doc" we felt that we were well prepared for the trials and tribulations of the Senior Class.

The beginning of our forth year found us on the last lap of our race. The brave company which had made the start had fallen one by one until only four of the original entrees now remain in the race. Many noble recruits had joined us from time to time and our present company was a determined one, full of strength and endurance. At times the way seemed difficult, but with renewed determination and faces ever set toward the front, we have continued to push forward to the goal which is now almost in reach. Our race has been characterized by good comradeship and good sportsmanship. No unfair advantages have been taken and we feel the toil has been worth while and the crown of rejoicing will more than compensate the labors and trials which have befallen us.

SUSANNE STONE, Class Historian.
Senior Class Prophecy

As I was taking one of my afternoon naps I had a very interesting dream, and I will try to write it down as it appeared to me. I was walking down a wide paved street with towering buildings on either side. Many fine cars were parked along each curb. As far as I could see either way I saw street cars and automobiles. As I was leisurely walking down the crowded street a newsboy bumped into me. I bought a paper and putting it under my arm I walked into a restaurant and while waiting for my lunch to be served I began reading my paper. I noticed that I was reading the "BENCH WARRANT" of November the eighteenth, nineteen hundred and fifty. The most important of six daily papers of Oxford, Ga. Liking sports very much I naturally turned to the sport page and noticed the headline which read something like this, "Notre Dame Freshmen vs. the Sweeping Blue Wave Squad of E. U. A." Just then someone aroused me from my paper; when I looked up I saw a tall man very neatly dressed in a black suit with a long-tailed coat. I soon remembered the face of "Buck" Ware. He told me that he was now pastor of the Main Street Methodist Church which had taken the place of the Allen Memorial. I asked "Buck" about the game and he said: "The Academy has the best team of any of the Prep schools of the Southland. You know V. W. Harvard is coaching, I suppose?"

I said, "Well, 'Buck,' are there any of our old classmates around town?"

"Why, yes," he said, "On the corner of Main and Seventeenth Street we have a large department store owned by H. N. Merry. Next door is a large fruit store owned by A. C. Kelley. Just across the street is the leading movie of the city owned by 'Boo' Ballard."

We had a short lunch together and I learned that the restaurant was owned by the Crawley Brothers.

We then walked about the city noticing many familiar places which had changed but little. At the Academy several additions had been made to the campus in the way of buildings. As we were strolling about the campus we met J. W. Sullivan who was chief of police.

After we had walked over the campus for a while "Buck" looked at his watch and said, "It is time for the game," so we walked out to Weber Field where a large stadium had been built. There was a large crowd and we were just in time to see the game begin. N. P. Manning who had become a great football enthusiast was referee with D. B. Dixon as head linesman. After the game which was an overwhelming victory for the Academy, I took a taxi to the hotel. When I went to pay the fare I recognized the face of Forrest Gay under a checkered cap. He told me that I would very likely meet several of my old friends in the hotel. When I went to register it was W. F. Lunsford who handed me the pen. I also noticed the name Leon Thigpen as manager on the top of the pad. Just as I left the desk I almost bumped into the Covington
brothers and just a little way behind were B. B. Barker and C. G. Marshall, all of whom had come down to see the game. I did not learn just what all these were doing, but they seemed to be getting along fine.

Later in the evening I met Cecil Carter and E. M. Shull who are now the leading business men of Crawford, Ga. I found that Cecil had been keeping up with several members of the old class of “25.” He told me that C. M. Sweat had founded a college near Atlanta, and that Susanne Stone had charge of a poultry farm near Oxford. It was rumored that she was to be married in the fall, but he didn’t find out for a certainty. And that Butler was a prominent physician made famous by his sure cure “two compound cathartics,” two ounces calomel, one quart of oil, two pounds of salts. He guarantees to cure or kill. I was greatly surprised to hear that Boggus had become a missionary to Turkey, and is the most famous American in that country. He said that Curtis Hutchinson was the minister and had a sign over his door which read, “MARRIAGE CEREMONIES PERFORMED DAY OR NIGHT, ELOPEMENTS A SPECIALTY.” He had heard that T. L. Pitts was a warden in the state penitentiary, and is accomplishing wonders for the convicts, that Oscar Vinson started right, but ended as janitor in a hotel, that Bill Ellington was principal of a kindergarten school in Atlanta. It seems as though he always did like to play, even while he was a Senior at E. U. A. J. T. Randle was a great politician; recently defeated for governor of Tennessee; he is now on the stage; is president of the Goodspring minstrels. He also mentioned the fact that J. T. Middlebrooks had superseded Mr. Wrigley as manager of the chewing gum manufacture. I heard that the total production had been greatly reduced since the change. That H. C. Cox was in the Federal Prison for selling books entitled, “How I Became the Greatest Orator of the Day.” I asked Cecil about R. T. Brocks and he said, “I lost all trace of him.” Last I heard of him he was in Africa. I also asked him about C. S. Smith. “Yes, the old class artist is teaching art at Columbia University, and is drawing cartoons for the New York Herald.” He also told me that W. D. Evans had started a minstrel of his own and has almost ruined Al. G. Fields, and that Jim Shockley is football coach at Oglethorpe, track coach at Harvard, basket-ball coach at Princeton, and he turned out championship teams at all these schools. When I was ready to retire Ben Hutchinson was the one who showed me to my room. I was very tired and fell down across the bed. At this point my dream ended and I awoke on my bed May the twenty-sixth, nineteen hundred and twenty-five.

Senior Class Poem

The time has come when we must bid adieu
To all things old, and welcome all things new;
The time when we must choose our way, and part
With a hidden tear, and a saddened heart;
We must grip our friends' hands and say farewell
To the classmates we know and love so well,
And roll away from our loved Oxford town
On a Georgia train that's homeward bound.
But on a future day in some far land,
When we have molded our lives to the plan
We formed in school days at Emory, long ago,
And age has whitened our hair like the snow,
Perhaps only a few may then survive—
Let us not forget the class of '25.

James T. Randle, Class Poet.
EMOCAD

Last Will and Testament of the
Senior Class, 1925

We, the Class of Nineteen Hundred and Twenty-five, of Emory University Academy, Oxford, Georgia, United States of America, in thirty-four individual and distinct parts, being about to pass out of this sphere of education in full possession of crammed minds, well trained memory, and almost superhuman understanding, do make and publish this, our last will and testament, hereby revoking and making void all former wills or promises by us at any time here-tofore made, or perhaps, carelessly spoken, one to the other, as a thoughtless wish of an idle hour.

As to such estate as it has pleased the fates and our strong hand and brains to win for us, we do dispose of the same as follows:

We give and bequeath to our beloved principal, “Papa” Rees, our sincere affection, and our deepest reverence, our heartiest gratitude, and the whole unlimited wealth of our external memory.

We give and bequeath to our beloved faculty all the amazing knowledge and startling information that we have given them from time to time in our various examination papers.

We give to the Junior Class the hard fought privileges, the senior dignity, and the boundless knowledge we have acquired during the past years. May they use these to as good advantage as their predecessors have done.

The following may seem but trifling bequests, but we hope they may be accepted not as worthless things lavishly thrown away, because we can no longer keep them, but as a continual reminder of the generosity of heart displayed in our free and full bestowed:

1st: To Dr. McCoy, the balance in our class treasury, to be used in buying a pair of rubber shoes for detective work. We feel that he will be sure to need these, dealing with the students that are to be our successors.

2nd: To Albert Butler, the ability of Jim Shockley as a foot-ball player.

We couldn't induce Fred Covington to surrender his.

3rd. To John Greer, Peter Manning's gift of gab.

4th. To Jack Simmons, the ability of “Boo” Ballard as a bull shooter.

5th. To Mary Brooks, Susanne Stone's privilege of being the only girl in the class.

6th. To Gungeons, the military ability of A. C. Kelley.

7th. To Scheesley, the popularity of Forrest Gay.

8th. To Hopkins, the unsurpassed wit of Barney Evans.

9th. To “Caruso” Parish, Barney Barker's talent as a basket-ball player.

10th. To “Squat” Ramsey, Julius Covington's ability as a scribe.

11th. To Warnell, the sheikish ability of D. B. Dixon.

Besides these gifts, we leave, not of necessity, but of own free will, our blessing, our tender memories of the pleasant associations together, and our pledge of friendship from henceforth and forever.

And we do hereby appoint said principal sole executor of this, our last will and testament.

In witness whereof we, the Class of Nineteen Hundred and Twenty-five, have to this, our will, set our hands and seal this twenty-second day of May, Anno Domini, one thousand nine hundred and twenty-five.

1925
Junior Class History

Three years ago a small mob of unaccounted-for freshmen gathered inside the walls of Emory Academy. They were very motley in appearance, eager for knowledge and prep school experience. We have polished up a bit now and have made a respectable showing in all phases of school life. The time has come for us to assume the dignity and responsibility of the present Senior Class. We must carry on in the Class of 1926.

Statistics show that we have three letter men, Albert Butler and Charles Burgess in football and Emmett Parrish in basket-ball. Nineteen men made the respective Company squads.

In literary circles we have the sport editor of The Bench Warrant and the sport editor of the Emocad.

In military accomplishments we have two Cadet Commissioned Officers, Gunnels, our president, and Ramsey, our vice-president. Then we are honored with one Co-ed., Mary Ruth Brooks, and we are very proud of her. Five of our number, are members of the orchestra or band, Asbury, Warnell, Campbell, and Hopkins.

Our class has earned every honor it has attained. You may know it has been a hard struggle when we tell you that only five of our present members are survivors of the freshman class of 1923.

There are many responsibilities which will devolve upon us next year. It will be our privilege to add fame to our Alma Mater, and jealously guard her honor.

Reluctantly, but sincerely, we bid farewell to the Senior Class of 1925.

History of Sophomore Class

Upon boarding the train to dear old E. U. A. after a great summer the freshman class of '24 determined within each individual's mind to make the Sophomore Class of '25 the best in the history of the school.

We arrived on the campus September 9th and began our work. Pretty soon we organized and as a class have made a record long to be remembered.

We have found it great to be Sophomores after our struggle as Rats. Now we, as cats, are making the rats hunt their holes.

And now we are looking for the time to come when we will fill the place left vacant by the Junior Class as they mount the Seniors' seats. The Sophomore Class has held its own in the various activities of the school life.

In the literary activities we make the following record. Gold medal-Freshman-Sophomore Declamation-Smith, Wall and Smith, members of the midterm debate. In the athletic field it would be hard to enumerate the many things done in athletics.

Wall, our president has come thru the football and basketball seasons with two letters.

Hagstrom made an able guard on the championship team in football, also copping his letter at this position.

Jack Dial was one of the most dangerous forwards in school rolling up many points for "A" Company's quintet.

We expect to do our part in baseball as soon as we begin work.

The class very successfully conducted a series of meetings during revival last fall.

We would not forget our two little Cecils who have shared the laurels in class work.

Now, Sophomores, let's keep up the fight and boost our class. Then when we come out of the harness at the close of school we will have made a record worthy of being remembered.

1925
History of Freshman Class

The real history of this class should not be written just yet, for the successes and failures through which we have passed have only recently gone by and we are handicapped by our comparatively short career as a class. While some of our members have had the pleasure of emerging from the dark and shadowy regions of Grammar School and have begun to get on to the ways of prep life, a goodly number of us have had to hurry, and lose no time, since last September. It is true that we have had our share of prep joys and fears in the ways of examinations and hard “earned rises,” but we cannot, like the grave and revered Seniors, pour into the attentive ears of underclassmen, long stories of hard fought battles or stormy scenes of Latin fields, but perchance during the long winter of 1924 we, too, can count our victories.

Some of the Freshmen are short of knowledge as most Freshmen are on entering prep. For instance in English:

Prof. Carlton: “David Turner, what is an infinitive?”

David Turner: “An infinitive is the change in the form of a word to show a change in its meaning.”

David is not alone in his proficiency in English, and for this reason the class as a whole has had a very hard time in Latin. At times we seem to be making progress, but again we find ourselves losing ground.

While we can’t boast of our superior knowledge of these subjects, we have many promising debaters and orators as well as athletes.

Cuba, Canada, Costa Rica, and many states between New York and Florida are represented by the Freshman class.

The Seniors look on us with pitying air, and the Juniors give us lots of fatherly advice. We say nothing and take it all in, for it will be of use when we become Juniors.

Despite our varied abilities and dispositions, ours has been a pleasant association. Perhaps the very difficult nature of our work makes us happier. Whatever may be the cause, we have been tried and true and in us exist a strong and enduring love for our Alma Mater.

Football History

We have had a most wonderful football season this year, one long to be remembered in the annals of the school. We have had what is generally considered the best season in the history of the school. More real football players have been developed than in some former years and the men leaving E. U. A. this year who have received E. U. A. monograms should reflect credit upon our school. The sportsmanship of the various teams and players was all that could be desired. The spirit shown at the game was also good. The competition between the teams was about as keen as possible, Company “B” finally winning the championship over the rest of the field. Coach Brown’s Company “B” team played well all thru the season and deserves praise for work as does Prof. Brown himself.

The opening game of our football schedule resulted in a glorious 13-2 victory for Company “C,” her first victory in many seasons. Company “A” was the victim in this game, being outplayed by the Company “C” team. The “C” team scored both of her touchdowns in the final quarter, due to brilliant runs by her backfield men. Fred Covington, Leonard Wall, and Edgar Clary starred for the winning team, while for Company “A” the work of George Crawley, Forrest Gay and Leon Thigpen was outstanding. Harvard also played well, intercepting a pass and racing 35 yards.

The following week Company “B” clashed with the winner of the opening game, Company “C,” and after a terrific battle was declared winner by a 6-0 score. Jack Simmons was responsible for the winning score, recovering a fumble behind Company “C’s” goal line. Jim Shockley and Barney Barker also starred for Company “B.” Wall, Covington, Clary, and Hopkins, were best for Company “C.”

It was left for Company “A” to upset the dope in her next game against Company “B.” Coming on the field doped to lose by a big score, Company “A’s” representatives led by Captain George Crawley played inspired ball, holding Company “B” down in the second half and scoring 16 points to win by a 16-7 score. Captain Crawley scored ten of Company “A’s” 16 points and was on the passing end of another touchdown. Jim Shockley made several nice runs in this game, but was unable to get loose for needed yards in the second half when Company “B” was being pressed so hard. Jeff Dickey put up a splendid brand of playing. Brooks scored a touchdown for Company “A” catching a long forward pass and “airing out” across the goal line.

The fourth game of the grid schedule found Company “C” and Company “A” hooking up for a sure–nough battle royal. And this game was a real battle, neither team being able to score, the final result reading 0-0. This was indeed a good showing for Company “A” since she had previously lost a 13-2 decision to the same team. “Squire” had his men fighting but not quite enough for victory as neither team won. Company “C” led in the number of first

1925
downs, several times carrying the ball near the Company “A” goal line, only to lose it and her chance for victory. Wall, Cleary and Covington, as usual were the stars for Company “C,” while Crawley, Gay, and Harman, played best for Company “A.”

The Company “C”-Company “B” game proved to be almost a walk-away for Company “B” in score, but not in playing as Company “C” had a slight edge over her heavier opponents. The final score read Company “B” 12, Company “C” 0. Jernigan intercepted a pass to score the first touchdown and “Barney” Evans broke thru the line to pick up a fumble and score Company “B’s” second touchdown. These plays were the two outstanding features of the game. Coach Frank Anderson of Oglethorpe University was present for the game and congratulated the local institution upon it’s splendid athletic teams. Several Company “C” players were knocked out in this game, Wall and Covington taking the count three times each, but failed to quit playing, continuing their good work until the finish of the game.

The final and championship game of the Academy’s grid schedule was staged Nov. 11 on the Covington gridiron. The final score found Company “B” leading by a 12-0 count. The score does not in any way indicate the real closeness of the affair. Both teams had a good chance to win with Company “B” taking advantage of this opportunity in the final minutes of the struggle to rush across two touchdowns and a championship. Shockley proved to be the man of the hour for Company “B.” Just when things were beginning to look blue, this star player returned a punt 36 yards across the line for the first score of the game. Using a delayed buck to good advantage, Company “B” succeeded in getting another 6 points when “Big Boy” Dickey went thru the line and up against the grave yard fence for a touchdown. This was indeed a great victory for Company “B” being gained over a good team. No one can say that Company “A’s” players didn’t fight because “Squire’s” boys did fight and that means fought till the very end although their efforts were not crowned with victory.

In winning the championship this season Company “B” leaves behind a splendid record made by a splendid team and the teams of future years will find it hard to produce a team that compares with the championship team of 1924.
Jim Shockley  
Weight 178  Height 5 ft., 8 in.  
Halfback  
Jim was the sensation of the football season at the Academy this season. He won several games by his brilliant playing. In the final and championship game of the season, Jim won the title for Company "B" returning a punt 36 yards for a touchdown in the final minutes of the game. This was one of the greatest plays of the season and showed what he can do when called upon. Jim was one of the hardest men to tackle in school, it usually taking more than one man to stop him. Jim has the honor of being captain of our football team and deserves the honor of his team mates. We are back of you Jim and know that you are going to make good as you have done here.

Leonard Wall  
Weight 146  Height 5 ft., 9 in.  
Fullback  
The player showing perhaps the best form for consistency was Leonard Wall. He seldom got loose for many long sensational runs, but fewer still were the times when this lad failed to gain his share of the needed yardage. We may well afford to watch him, one of the best athletes that Emory University Academy boasts.

Roy Brooks  
Weight 145  Height 5 ft., 7 in.  
Halfback  
Roy, in his first year out for football, cinched a place on "Squire's "A" Company Team and by hard work finally won for himself a place on the All E. U. A. squad. Roy is very speedy and made several nice end runs during the 1924 season. We congratulate Roy upon his success and beg that he continue his good work, which we believe he will do.

Cecil Carter  
Weight 155  Height 5 ft., 10 in.  
Tackle  
Cecil is another boy who made good in his first attempt to play football at E. U. A. Continuing the good work of his brother, "Red," Cecil waged a winning fight for a place on the coveted All E. U. A. squad. We are expecting great things from you, Cecil, and wish you luck.
Brethren, don’t ever get the idea that it is safe to near this boy when carrying a football, for he is sure to cut you down with a beautiful, well executed tackle. Yes, Leon can be depended upon to get the man with the ball. He also knows something of the art of getting under punts, being able to do this to perfection. Give this fighting athlete a chance and he will make good anywhere he goes.

William Evans
Weight 175
Height 6 ft., 2 in.
Guard

“Barney Google” improving with each game, easily won for himself a letter and the admiration of the students of E. U. A. “Barney” was one of the few linemen to score during the 1924 season, when, in the final game against Company “C,” he broke thru the line to scoop up a fumble and race 25 yards for a touchdown. He has the brains, all-round ability, and weight to make some college a good football player. The college that lands “Barney” will indeed be lucky.

Charlie Burgess
Weight 140
Height 5 ft., 5 in.
Center

“Froggy” is one of the smallest men ever to get a letter at E. U. A. in football, and the expression, “little but loud,” best fits him. He can hit a dime with his pass from center and very seldom if ever made a bad play. He was the outstanding star of one game this season, getting tackle after tackle. His knack of tackling around the shoe tops is a treat to behold. Yes, “Froggy” is the “berries,” and we will be pulling for him strong in his effort to star at the greatest of all high schools, Lanier.

Albert Butler
Weight 175
Height 5 ft., 11 in.
Tackle

The success of Company “C” during the past season was due in a large part to the all round playing of this star tackle.

Here we have another of E. U. A.’s hardest fighters, the player who fought from start to finish. He got into every play with the grit that produced his fame at this school through his masterful work. “Mutt” will be back with us again next season and should go a long ways towards helping to cinch the grid title for Company “C.”
Jeff Dickey  
Tackle

Jeff's ambition has been fulfilled, this being his third consecutive year that he has received his varsity "E. U. A." for his playing in football. He has the honor of being Captain of the 1924 championship outfit, and he deserves great credit for his work during the season. "They shall not pass" has been Jeff's motto for these three years and he has lived up to it in every way. College scouts have looked this boy over and have come to the conclusion that he has a bright future before him, and here's hoping he decides to enter the fightingest college of them all, Oglethorpe. Go to it, big boy, Emory University Academy is backing you.

Forrest Gay  
Fullback

Forrest is too good a football player to be left off any Prep school team. He is right at the top of the list of players at this school and will be near the top wherever he may go. He "put out" in every game, both for his team and for his girl, or girls, on the sidelines. Forrest surely was inspired by some of these girls in a few of the games, judging by his masterful playing. This is his last year with us and we look forward to the time, when we feel sure that we shall be reading of his accomplishments in the field of sport. Watch Forrest step out is our prediction.

Virgil Harvard  
Guard

At the beginning of our football season "Fat" went out for Company "A's" team with the determination to make good. To this end he succeeded, not only making Company "A's" team, but also the All E. U. A. squad. "Fat" worked hard throughout the season and deserves a great deal of praise for his playing. It was nigh impossible to come thru "Fat's" guard position and the teams soon found this out. Indeed, "Fat," old boy, you have won out in the end, and we are proud of you. Keep it up and you have a fine future before you.

Fred Covington  
Halfback

"Cov" is certainly the stuff when it comes to playing football. He was probably "C" Company's best player and this is saying a great deal. "Cov" is a good, cool headed player and can be depended upon to come across with his share of the thrills in any game. We look for nothing but success from you, "Cov," and assure you our best wishes.
Raiford Hagstrom

Weight 180
Height 5 ft., 10 in.
Guard

Raiford is another boy who made E. U. A.'s varsity squad in his first year in football. He played hard in all of the games and showed a fighting spirit that couldn't be downed. Very seldom gains were made thru his position on Company "B"'s line. He also tackled well. Raiford will be back with us next year and will help "B" Company defend her championship. He should have another good year next season as he has had this year.

Horace Merry

Weight 142
Height 5 ft., 7 in.
End

Here we have one of E. U. A.'s hardest tacklers. Horace is simply arsenic at dumping the interference and getting the man with the ball. He went into each game with the determination to fight unto the end, and fight he did, which accounts for the great success that he has attained. Stick with 'em, Horace, we're with you, old man.

Barney Barker

Weight 145
Height 5 ft., 6 in.
Halfback

"Chip's" greatest ability as a football player lies in his giving interference to his backfield mates. He can do this well and also step off the yards himself. He has a high average in the number of yards gained for the season and should feel proud of his record for the year. "Chip" is a natural born athlete and probably the best at Emory University Academy. Watch Morgan Blake's eyes widen when this boy gets in action for Tech.

Arthur Harman

Weight 150
Height 5 ft., 8 in.
Guard

This is Arthur's first year at this school, but in this time he has won his spurs as an athlete and as a real fellow in our student body. Fight is this boy's middle name and he fought hard every minute of every game. There is no piking on the part of Harman. He went into every game determined to do something and in nearly every game in which he took part he starred. "Getting the man with the ball" seemed to have been his pastime. Arthur very seldom failed to get the man carrying the ball when a play was called over his position. Arthur should make a splendid record for some college.

Captain Joe Crawley  
Weight 141  Height 5 ft., 9 in.  
Forward  
Joe has played exceptionally well this season, running up a good number of points and developing a good passing attack. He played on Coach Strozier’s championship Company “B” team and did his part well. He is, indeed, a good player and we expect to see Joe make good in college circles. He is captain of our squad and is a good leader in every way.

Alt. Capt. Chas. Crawley  
Weight 135  Height 5 ft., 6 in.  
Forward  
“Greased Lightning” is the only thing that is anything like as fast as this boy, “Pee Wee” Crawley. This baby can play basketball to suit anyone. Dribble, pass or do just anything you might wish with a basket-ball is what “Pee Wee” can do when called upon. We would like to see the college team that this boy couldn’t make. AMEN. Not only is “Pee Wee” a great basketeer, but also a splendid baseball player. He is in fact one of the best athletes at Emory University Academy and is destined to reflect credit upon his Alma Mater.

Lee Ballard  
Weight 150  Height 5 ft., 9½ in.  
Guard  
“Boo,” the reformed forward of Company “A” stands amongst the foremost basketeers that have donned uniforms at E. U. A. His ability and assuredness on the floor to get the ball when it was most needed and to advance it to his own goal made him of inestimable value to his team. When it comes to breaking up dribbling, “Boo” is simply perfect, not a single man getting thru him for a goal this season. We predict for “Boo” a bright future, and the college that lands this star, will have accomplished much toward her basket-ball future.

Leonard Wall  
Weight 140  Height 5 ft., 8 in.  
Guard  
Leonard has no superior in school in the art of taking the ball off the backboard and it is rarely seldom that a man can get a crip shot off him. Leonard has had a great athletic year at this school this year and we are proud to have such an athlete in our midst. He is a real representative of E. U. A. as an athlete and as a real all-round fellow. Leonard has two other years yet to play for Company “C” and we feel safe in saying that he will make good when he enters college.
Curtis Hutchinson

Weight 145
Height 5 ft., 9 in.

Guard

Curtis is a guard from your heart. Don't ever get the idea that he can't stay with you for he can do this very thing. He is also a good forward and scored several points for his team while playing at this position. He starred in nearly every game in which he played and had a most successful season as a whole. He, like many of our other best athletes, will not be back with us next year, and we shall miss him very much. He is leaving behind a most enviable record and one that he should be proud of.

Barney Barker

Weight 140
Height 5 ft., 7 in.

Forward

Here we have one of our best basket-ball players. Barney, or rather "Chip," as he is known on the campus, has all the qualities needed in making a real player. He possesses plenty of speed, and passwork. "Chip" knows basket-ball from A to Z, and has been one of the most consistent players on the campus. We believe in the ability of Barney and predict for him a most glorious future. He may rest assured that he has the backing and best wishes of the students of E. U. A.

Oscar Vinson

Weight 138
Height 5 ft., 8 in.

Guard

"Skinny" is another one of our splendid guards. Although this is his first year with us he has nevertheless made good in every way possible. "Skinny" is a good dribbler and takes part in the offensive a great deal by his expert dribbling and passing. He is very adept at breaking up the dribbling of an opposing team. Yes, this player is a real good, graceful, basket-ball shark, and we envy the record that he has made.

Emmett Parrish

Weight 155
Height 6 ft.

Center

In "Crue" we have one of the most dangerous men in school, due to the fact that he can dribble the ball well, is an accurate shot, and is able to shoot from anywhere. His record in two games being 47 points, a record unsurpassed by any man in school for that length of time. His long suit is dribbling and at that occupation he is simply "arsenic," having dribbled several times thru the opponents entire defense to score the needed points.

1925
Basket-ball History

The 1925 basket-ball season at the Academy was undoubtedly one of the best in the annals of the school. Immediately after the close of the football schedule, basket-ball practice got underway with more than half of the student body reporting for practices. Four members of the faculty volunteered their services and assumed charge of the various squads. It was only a short time before everyone could see that we were going to have a fine season.

Company “C” met Company “B” in the opening struggle and after a hard fought game, Company “B” emerged victor by a 22-20 score. The game was very interesting, especially in the closing minutes of the fracas when Company “C” rallied only to lose out by a 2-point margin. Barney Barker and “Pee Wee” Crawley were the two outstanding starts of the contest.

Company “B” continued her good playing in her next two starts, winning both games. It began to look as though Company “B” would walk away with the championship without losing a game, but this was not to be the case as she lost her following two games, Company “C” and Company “A” playing splendid basket-ball to defeat her. Company “B” in her last game against Company “A,” defeated the “A” quintet, winning the championship with four victories against two defeats.

Company “A” played in hard luck throughout the schedule. After losing her first two games, she suddenly developed into a good team and won her next two games. With only two more games to be played and a fine chance for the championship, three members of the “A” Company team were taken ill and were unable to perform in the last two games on Company “A’s” schedule. This played havoc with Company “A’s” chances to cop the title and she finished in last place, winning only two games against four defeats. Company “C” had a right good season winning three games and losing a like number.

Company “B’s” scrub team also won the Scrub championship, defeating Company “C’s” scrub outfit for the title in a post-season game. The playing of Shull, Middlebrooks, and Covington featured the games in the Scrub division.

We wish to congratulate Prof. Strozier and Lieut. Boulware upon their success in developing a championship team. They worked hard with charges and deserve praise for their efforts. The other coaches are to be congratulated for although failing to win the championship, they developed teams that offered splendid opposition to the champs.

At the finish of the schedule, the lettermen in all branches of sport were royally entertained at a banquet given by the school.

Everyone had a part in the success of the 1925 season, nearly every student coming out for the games and lending his support to his team. The people of Oxford, Covington and other parts of the county were also present for our games.

We have had a great season and one that should be hard to beat in future years.

This year is E. U. A.'s first attempt at intercollegiate athletics. We only got track, but we won our share of the honors as can be seen by statistics. Captain Lee Ballard led his men into the fray with a die or win determination, hence the honors were piled up for ole E. U. A. This meet will long be remembered by the some fifteen hundred (1500) spectators present on the field.

Oxford

About one hundred years ago the Methodist people of upper Georgia located a School in the Western border of Covington, called the Georgia Manual Labor School which taught the students how to work as well as how to study. After struggling for an existence for several years the management decided on a different basis of school work. They determined to sell out the Manual Labor School and found a College.

After considerable discussion and some competition between suggested locations, it was decided to dispose of the plant at Covington and purchase about three miles further north 1400 acres of virgin Oak, Hickory and Pine land and on this tract to lay out a town and here locate a College.

After the Campus was located at one end of the proposed town site, the streets were laid out radiating from the spot where the Main Building was located, with widths varying from 99 to 165 feet according to their supposed importance and were named for Methodist preachers of former days. The town was named Oxford for the old English University town. The College was named for a noted Methodist Bishop who had the misfortune to be killed in a runaway accident about that time.

The building lots were sold at auction and all deeds contained a clause in which the property was made to revert to the College Trustees should the owner allow any spirituous liquors to be sold on the same. The Town of Oxford had from the beginning a Commission form of government with seven Commissioners who jointly managed the affairs of the town.

Palmer Institute a Seven Grade School with four teachers furnishes splendid elementary educational advantages free to the surrounding territory.

Emory University Academy is unrivalled as a Four Year High School admitting resident girls as well as boys.

Oxford was long the location of Emory College, but when the scope of the Institution was enlarged to that of a University it was deemed best by the authorities that be, to move it to a new location near Atlanta.

Oxford is dear to hundreds of former Emory Students scattered all over the world and it is a matter of mutual delight to them and the older residents of the Town to have them revisit the old place.

There are very few towns of as high a religious and intellectual tone as the old Town of Oxford among the trees.
New Student: “Say, what kind of table do they set here?”
Old Student: “Oh, all right, I suppose. We have chicken every morning.”
New Student: “Chicken every morning? How is it served?”
Old Student: “In the shell.” —Judge.

**IT TAKES TWO**

Ballard: “How can I keep postage stamps from sticking together?”
“Fat” Harvard: “Buy them one at a time.”
Page: “Give me a sentence with the word tango.”
Hogan: “Tango rain no ‘mo.”

**THE DEAD FLAME**

Kaydet: “How’s tricks?”
Kaydet: “Oh, she’s married. I have another one now.” —V. M. I. Sniper.

Blalock went to the post office the other day and tried to buy some stamped envelopes on credit.

Old Man (to little girl): “What do you say little girl I’ll give you a nickel for a kiss.”
Little Girl: “No thank you, I can make more taking castor oil.” —Centre Colonel.

He: “What kind of shoes do you think that I ought to wear with these golf hose?”
She: “Hip boots.” —Colorado Dodo.

“Not many people can do this,” said a magician as he turned his ford into a lamp post. —S. Calif. Wampus.

**CHEESE IT**

“Do you know how rats get in here?”
“Naw.”
“Yes, that’s right.” —Penn. Punch Bowl.

The bearded lady of Ringling Bros. circus recently died on Staten Island leaving a wife and five children. —N. Y. Medley.

Blalock: “I need five dollars for my caution money; I have only four.”
“Boo” Ballard: “That’s easy. Pawn the four for three and sell the pawn ticket for two.”

**OUT OF SIGHT, OUT OF MIND**

Ella: “I can’t find my bathing suit anywhere.”
Stella: “See if you have it on.”

Tar: “Why can’t an Indian shimmy?”
Heel: “I don’t know; why?”
Tar: “Because his quiver is in the wrong place.”
DEAR MR. BALLARD:

It gives me pleasure to reserve this space in which to invite the graduates of Emory Academy to consider Oglethorpe University as their prospective Alma Mater. There are many good colleges in the South but we think that Oglethorpe will appeal to you because of those spiritual and aesthetic qualities which have made it great. Oglethorpe is a student's college, more perhaps than any other institution which you are likely to attend. Our students are our college and they are distinguishing themselves in a most remarkable manner. This year, for example, they have won for their Alma Mater four great championships. The football team holds the championship of the S. I. A. A. The baseball team holds the championship of the whole collegiate South. The orchestra is generally considered to be the best college orchestra in the southeast. The Oglethorpe Players are the first and, indeed, practically the only southern organization of playmakers composed entirely of undergraduates who write and act their own plays, making their own scenery, and accompanied by their own orchestra.

Perhaps one explanation of the unusual spirit and ability of the Oglethorpe men is found in that intimate contact which they enjoy with a faculty, the head of every department of which is found in Who's Who in America.

This, combined with the high aesthetic ideals associated with the wonderful buildings which are being erected on our campus, has aided in stamping Oglethorpe as the mother of men and a builder of gentlemen.

Heartily yours,

THORNWELL JACOBS, President
