Coach Burnett

DROWNPROOFING, LIFE SAVING, DROWNPROOFING, INTRAMURALS, DROWNPROOFING, PARKING TICKETS

Coach Charles A. Burnett, who has beautiful blue eyes and an easy smile which reveal instantly his immanent affability, has, in his 14 years at Oxford, helped and encouraged a small portion of that often-castigated group, today's youth, to approach the fulfillment of their potential as healthy geniuses. His classes are an exercise in productive relaxation, for he believes that physical education is necessary in the curriculum not only as a learning experience, but also as a means of keeping one's body fit and easing academic tensions. In future life, the skills learned are beneficial as salutary recreation. His active leadership of the intramural program is a splendid example of his eagerness to provide an opportunity for everyone, not just the best athletes, to participate in and enjoy intramural competition. In his official capacity as Traffic Judge, he keeps track of our parking places and fines reckless drivers. The students of Oxford College are richer in mind and body for having experienced Mr. Burnett as a friend and a professor.

Man's estimation of himself and others as evidenced by his verbal, visual, and aural expressions is introduced to the students by the Humanities Department through the study of art, music, philosophy, and literature.

Demanding accuracy of logic and the understanding of the necessity of precise methods, the Mathematics Department helps to give the students an insight into the many uses of mathematics in all facets of education.
With a firm belief that physical fitness is as vital to the life of a student as mental development, the Physical Education department has created a demanding program. The staff is constantly seeking to improve the physical capabilities of the Oxford student body.

Students selected for the Hall of Fame have shown an outstanding degree of involvement in, and dedication to, Oxford. The election, sponsored by the MEMORY, is held during the winter and candidates are voted on by the entire student body. The nominees are chosen on the basis of academic excellence, leadership, and character. The Hall of Fame finalists have shown distinct possibilities of becoming potential leaders and contributors to our society.

At Oxford College, the honorary leadership and scholarship society is Eta Sigma Psi. To be eligible for membership, students must have a 2.0 average and participate in campus activities. Members are tapped for this honor in the fall and spring and must undergo a rigorous initiation ritual to become official members.

Undoubtedly the highest academic honor one can receive at Oxford is election to membership in Alpha Epsilon Upsilon. Being tapped for membership in Alpha Epsilon Upsilon speaks well of a student's outstanding scholastic achievement and also of his diligence.

It is the function of the Student Conduct Council to educate the student body concerning acceptable standards of conduct at Oxford College. The SCC is also responsible for hearing testimony in cases of misconduct, deciding guilt or innocence and imposing or recommending punishment.

The newly organized Student Activities Council provides the organizational basis for all social activities on campus. Composed of the Vice President of Social Concerns, a council of sophomore and freshman members, and Mr. Davis, the SAC coordinates such activities as dances, films, weekend trips, and banquets. The main concern however, has been the establishment of a new Campus Center in Candler Hall. The SAC has accomplished much this year and has laid a firm foundation on which future councils can build.

An atmosphere of group freedom combined with individual responsibility emerged with the formation of the Women's Advisory Council. To enhance the leadership of the president, a sophomore adviser and a freshman representative were elected by popular vote as the direct leaders on each floor. The WAC works to create an atmosphere in which each girl is not bent under archaic rules but is given the opportunity to stretch into the mold of a responsible and perceptive woman.
Improving the standards of life in the men's dorms is the problem tackled by the Men's Advisory Council. With the election of a hardworking president, John Martin, the MAC started the year with a new form of government based on personal discretion and consideration. The MAC also provides funds for captive men who exceed the bounds of propriety and break the law. Their dedicated efforts have, to a limited extent, made dorm life at Oxford more bearable.

For those who have been consistently outraged by the large percentage of ectomorphs on this campus, the Intramural Activities Council offers a haven of respectability. The IAC is composed of one representative from each men's dorm and one representative from each of the women's companies. An overall representative is chosen from the men's and women's teams. The council plans the intramural program for each quarter and informs the student body of the upcoming activities. Points for participation and winning are accumulated during the year. The leading men's dorm and women's company are awarded a trophy in the spring.

Religious Activities Council

Coordinating the religious denominations on campus, the Religious Activities Council strives to keep the student body aware that religion is still an important facet of life. Each quarter the council plans activities which stimulate student interest. During fall quarter the RAC sponsored a weekend retreat to Hard Labor Creek and a caroling hayride before Christmas. The RAC demonstrates that religion can be found in all aspects of the campus community.

Cheerleaders have always been an integral part of any sport. The Oxford cheerleaders deserve much recognition for their undying efforts. Besides getting up early to travel to other campuses, the cheerleaders raised many spirits during those games that were a letdown for the team as well as the spectators. Hard work and enthusiasm were characteristics of the cheerleaders throughout the soccer season.

Memory

To create an annual that reflects student opinions and attitudes, the staff of the 1970 MEMORY has worked long days and nights. There were pages to design, write-ups to do, layouts to draw, and pictures to choose. This time, however, has been well spent if the MEMORY 1970 has presented the student body with a meaningful annual that will remain as a vivid memory of the Oxford experience.

"The Spokesman," Voice of the Students, has given Oxford a new slant on the news. Each edition attempts not only to entertain and inform the student body and faculty, but also to stimulate interest in the school. Why sing? Why take up another hour each week to sing? This single hour is more than just sixty minutes spent vibrating the vocal cords. It is an hour spent in the exploration of music of the past and present. Dr. Guillebeau serves as a competent and enthusiastic guide. Without him, the chorus is lost. Singing is their form of expression.

Love gives naught but itself and takes naught but from itself.
Love possesses not nor would it be possessed;
For love is sufficient unto love.

When you love you should not say, “God is in my heart,” but rather, “I am in the heart of God.”
And think not you can direct the course of love, for love, if it finds you worthy, directs your course.
Pleasure is a freedom-song
But it is not freedom.
It is the blossoming of your desires,
But it is not their fruit.
It is a depth calling unto a height,
But it is not the deep nor the high.
It is the caged taking wing,
But it is not space encompassed.
Ay, in very truth, pleasure is a freedom-song.
Say not, “I have found the truth,” but rather, “I have found a truth.”
Say not, “I have found the path of the soul.”
Say rather, “I have met the soul walking upon my path.”
For the soul walks upon all paths. The soul walks not upon a line, neither does it grow like a reed.
The soul unfolds itself, like a lotus of countless petals.
We were terrified in September, 1969. College just wasn’t supposed to be centered around water guns and lard. The tension from ratting and being away from home was building slowly. So we trusted our roommates and the kid across the hall. The street dances were frightening. Sophomores danced with sophomores, summer kids with summer kids, and new kids just smiled and watched nervously.
That first winter quarter—returning to the warmth of your room after a brittle day of classes, watching the strained rays of sun glimmer from the icy, dripping sides of Seney. The heat from a cigarette sometimes being all the warmth one is able to get from Oxford.
It’s seven in the morning, and you hear the phone upstairs. Someone walks down to your room and says, “It’s for you.” You bop upstairs while the one you hung on last night still hangs on. “Hello?” The voice replies, “Come bail me out!”
Ten years from now we'll come back to Oxford (with two kids and a Ph. D.) and where trees once stood there will be a new gym, four new dorms and a student center complex (complete with a stereo system, all-night movies, and enough parking space for 5000 cars and/or pick-up trucks. But Seney and the pigeons, never changing, will still be pumping life into Oxford.
How naive we were! We thought drown-proofing was a lifesaver, pot was like a small pan, and beer was not for minors. We had our ideas about hippies. Somehow it never occurred to us that they were just as happy doing their thing as we were doing ours.
See the faded carpet.
See the tired lawyers.
See the mad librarians.
See the disgruntled students.
See the new $600,000 library.
Last summer man walked on the moon. And we took the giant step for all mankind. Enthusiastic was not the word. We wrote letters to pen pals in Europe, called our roommates, saw Space Odyssey three times and even talked to our parents. What a step that was!
Sophomores
Summer finally came and we went home or just away. We counted the days until we could sit on the quad once again. No one understood our restlessness because we had matured as only an Oxfordian could. They had never dozed on the quad or tapped a keg at the river or seen Mr. Davis excited by a new project or heard the Dean tell a story in assembly. But most of all they had never seen friends rally to help a friend in need. So we bided our time until fall.
At ebb tide I wrote
A line upon the sand
And gave it all my heart
And all my soul.
At flood tide I returned
To read what I had inscribed
And found my ignorance upon the shore.
Spring descends on Oxford in a burst of green, white, and sunshine. We do things that, on reflection, are astounding, but are so much fun: walking in our good clothes in the rain on a Sunday afternoon, wading in the river and being grateful for having had drownproofing, being able to drink outside again without freezing, playing ball with a frisbee and a stick. The girls bask securely on the sundeck and the boys bask precariously on the roofs of the porches. The boy who had hidden in his room all fall and winter discovers that girl and is never seen again. No one seems to study yet our grades are remarkably good. That 8 o’clock class is bearable only because you can see the quad in all its glory through the window. Everyone would probably like to run “naqued.” A bunch of girls go drinking and are discovered by a bunch of boys and everyone has an enjoyable evening. Dates are not prearranged, they just happen and are a spontaneous reaction to spring at Oxford.
Winter at Oxford is such a depressant. The rain is constant and the chill is consuming. We become individual ice cubes and clink harshly against each other. Some of us find the atmosphere squashing us and try various means of escape. Some few got married and some ventured even beyond themselves.

Dooley’s Diary
ONE OF THE BEST-KEPT TRADITIONS IN THE WORLD

Sunday, Sept. 21—My spirit is gladdened to see my eternal resting place filling once more with my best students ever. The M.A.C. is off to a good start—wondering where enough booze was acquired to get 400 students drunk! Surely not the suitcase!

Monday, Sept. 22—My young rats are much disturbed at the activities they are subjected to. They are assured the wise and noble sophomores that there is always room for jello! John Lee ushers the new year in a typically Tennessee way. Sorry to hear that Seccat failed the first night of the quarter. Miss Newman blows her cool, and the rats minds, with her delightful garbage mouth.

Tuesday, September 23—First day of classes. Wolfing, motorboating and air raids continue. Convocation is impressively boring. Tonight was our first water battle with Lord of the Flies. Chain, finding Bonnell spirit too much to overcome. Mr. Bonnell is accidentally drowned, which was worth all the trouble of cleaning up.

Wednesday, Sept. 24—Blessed Sunshine! Scott, Dick, and Bill were the belles of the sketch Miss Aertker is cooking out in the fine style of an extroverted flirt. The loss of her favorite alumni doesn’t seem to affect her. The Quixi Pixi bombs his first of the season. Sorry folks.

Thursday, Sept. 25—Today leaves rats wondering when this week is going to end and sophs wondering where the money for the auction will come from. Bay of Pigs turns into a disaster, but the 3rd East W. Corps came out on top. Mr. Harner, did your date really hassle over a few things between beers? Tell me, who got the highest? Freshman are also wondering where the president of the student body is, and who he is—something Kilday?

Friday, Sept. 26—First week is over. The rats become seasoned with various foods and perfumes, then auctioned off. Mr. Martin and Mr. Winter, you certainly paid a high price for a little “bomb.” Girls pull record time for hair washing; boys make record time with girls at river.

Saturday, Sept. 27—Tests, tests, for my tired rats. Dowman’s parking lot looks like breakfast in the cafeteria. Congratulations to Emmie and Bill—Rat Queen and King. Especially to Bill for making up the stairs to accept the award. The Greek can certainly do his thing!!

The fluxion of life follows us through days of anguish and achievement. Perhaps the anguish of failure teaches us more of others than of winning.
Man’s needs change, but not his love, nor his desire that his love should satisfy his needs. Know therefore, that from the greater silence I shall return. Your thoughts and my words are waves from a sealed memory that keeps records of our yesterday. “Life and all that lives, is concealed in the mist and not in the crystal. In the twilight of memory we shall meet once more: nay, rather, we shall never part.”
Dear Reader,

The annual is finally finished and there are so many people that should be thanked. We couldn’t have made it without Mr. Elizer, Mrs. Helen Morgan, Mrs. Wright, and Mr. James Grant because they gave more than willingly of their time and advice. Any annual, whether excessively large or super-small, has those dependable workers who always appear when they’re needed. I couldn’t let this year go by without thanking Jeff and Leta for being here every time the room was opened.

Throughout these 136 pages, we have tried to show Oxford, as we visualize it. Oxford, in our eyes, is more than an educational institution, it is a way of life that can either make you or break you. Perhaps that sounds a little too strong, but an Oxfordian has matured in his two years here as no students elsewhere could ever hope to. Whether some of us wish to acknowledge it or not, Oxford is an experience in interaction. We must work together in order to make this place live. Perhaps Oxford does, indeed, have a living spirit that remains in us long after graduation and keeps us from ever really being separated.

Anyway, we tried to tell our story and we hope you liked it.
