In Memory...

Stephanie was loved by all her peers, she had a loving family, and everyone was sad to hear of her death. Students from the whole school brought flowers and lit candles in her memory.

Stephanie had a beautiful smile and a wonderful attitude.
Dedication to Candice Smith

This tree was planted in memory of Candice Smith.

Students gathered to show support for the beloved Candice. Here, the sophomore class gift committee is shown pictured with Candice’s mother.

Oxford College 2010 Yearbook

Some Oxford graduates wish Oxford offered all four years of the baccalaureate degree while others cannot wait to get on to what is next. But a few years after their graduation from Emory, nearly all look back on their Oxford years with affection for the College, the faculty and staff, and especially for the friends they made here. Many alumni who graduated ten and twenty years ago will tell you that their best friends are still those they made at Oxford.

Your yearbook is a time capsule that lets you take a little of Oxford with you into the future. Though it may be unimaginable now, there may come a time when you will not remember all the friends and activities you enjoyed in these two years. The photographs of people and places collected in this yearbook will reconnect you to your Oxford years.

It has been a pleasure and an honor to have each of you as a member of the Oxford Community. You are members of a distinguished tradition the 165th class of Oxford graduates to share academic challenges, leadership opportunities, and friendships in an exceptionally supportive community. We look forward to your continued success and hope to hear from you often.

Stephen Bowen, Dean

Dooley

"Presidents** May Come, President's May Go; Professors May Come, Professors May Go; Students May Come, Students May Go; But Dooley Lives On Forever!!!

--James W. Dooley
When I was laboring in Emory University archives several years ago researching old Emory College and Oxford College historical documents, I always looked forward to the yearbook exploration. Old college yearbooks provide pieces of a puzzle and clues that form some collective impression about what it would be like to be student during the year of publication. In spite of each yearbook editor’s intention of faithfully representing the year in review, the images and commentary are replete with inside jokes, commonly known events, and bits of student culture that only a student of the period could accurately decipher. It was great fun to be a time traveler and try to solve the riddle of the student culture of the old campus.

On many occasions since I graduated from college, I have retrieved my own college yearbook to check out a name, a face, or an event. I have found that college yearbooks are not fully appreciated until a certain amount of time passes at least that has been true for me. They always make me smile...

I am confident that you will find the following images and commentary in the 2010 Memory to be a touchstone for the present and a treasure for the future.

Congratulations to the Memory staff for a job well done.

When I was chosen to be the editor of this year's yearbook I knew that it would not be easy to capture a whole year's worth of memories into one book. But, along with a group of dedicated peers, we were all able to put together this book of memories. This experience has been a wonderful one, we all had fun sorting through the millions of pictures and putting them all together. Not only was this a very fun-filled project, but one which we hope will cause the readers to look back and hopefully, enable them to remember this year's highs and lows, for this is the emotion we wished to evoke with putting this book together. I hope the class has as much fun reading this book as I had making it.
