The many places, faces and styles of Oxford.

The hopes, dreams and aspirations of Oxford.

Oxford College of Emory University

Remember Yesterday  Live Today  Dream Tomorrow
Yesterday and Tomorrow

As this year’s students arrived on Oxford’s campus, there was a mixture of expressions: sophomores remembering the events of last year and freshmen awaiting the experiences of their first year in college. The students were not the only people wondering about the new year, administration also anxiously pondered about what this school year and its students might have in store for them. Students organized their schedules, registered for their classes, bought their books, and prepared for their classes. In this hectic and excited fashion, Oxford’s school year of 1989-1990 opened.

Top Left: Look! Jameel Rahman got a “standing Ovation” at Play Fair.

Far Left: Jan Peters got a kiss from Dooley’s Dolls.
The sophomore life at Oxford marks the final chapter in the two year system known as the “Oxford Experience.” Having extinguished the fear of not making the transition from high school to college, the sophomores must face the reality of choosing a major field of study at the university level. This year is a time when we share many of the college events and traditions with the freshman class. Although it marks the end of our life at Oxford, we are sustained by the friendships that brought the sophomores together.

The year began with new life entering Oxford’s gate. Freshmen arrived full of hopes and expectations. Orientation started off by meeting future friends and making a gloomy room as fresh and new as possible. The days that followed were full of socials and late nights in the dorm. Play Fair brought the halls together for some crazy activities. By the time the sophomores arrived, the freshmen felt like they were a part of Oxford, and welcomed the challenge of learning more new names.
Dean Murdy

Dean William H. Murdy, Dean and Executive Officer of Oxford College, has been here at Oxford for many years. He has shared his views and feelings about the changes Oxford has undergone.

“We have had two good recruiting years in a row and the overall quality of the students here at Oxford has improved over this period of time. The leadership of Oxford’s student government and its clubs has improved tremendously over that of last year. I feel that under the new Assistant Dean of Campus Life, Joe Moon, and Campus Life itself, Oxford’s campus atmosphere is getting better and better. The academic curriculum at Oxford has become more rigorous and challenging. Oxford College has inherent qualities about its curriculum and its social life, as well.

I look forward to a continuation is the positive momentum in curricular and extracurricular activities on the Oxford campus. I feel that Oxford College is moving forward in the most positive way.”

Oxford Studies

There are some things everyone at Oxford College has to do: eat at Lil’s, take English 110, History, and swimming. And there’s something no one has to take, but 93% of the students sign up for each semester: OXFORD STUDIES!

Some reasons why Oxford Studies is so popular might be: the wit of the director, interesting topics, credit for volunteer work, an easy “A,” or four hours credit to make up for a dropped course. Whatever the reasons, Oxford Studies is a success. The two topics for this year were: “Fun: Comedy, Play, and Humor” and “Ecology and Environment.”

Oxford Studies is unique to our campus, and is one way we show our commitment to a liberal arts education that tries to pull together the many academic disciplines and relate them to enduring human values.
Oxford Chorale

The Oxford Chorale is a performing vocal organization made up of over fifty students, faculty, and staff of Oxford College. Students may participate for credit (1 hr.) or as non-credit members. The Chorale performs public concerts for many occasions on campus: the annual Christmas, Spring, and Oxford Day concerts, and an Allen Memorial Church concert each semester. In December the Chorale performed in Milledgeville and plans other off-campus concerts.

The repertoire includes great art compositions, folk songs, and other sacred and secular music. All members of the Oxford College community are invited to participate. Dr. Brownlee Waschek, Director.

Campus Life
Dean Joe Moon, the Assistant Dean of Campus Life, has been at Oxford for the past two years. He has been working to learn and get to know the students, the traditions, and the “ways” of Oxford College. He shared his views of the changes he has seen and felt here at Oxford these two years.

“I have found that the students this year are much more cooperative with me and Campus Life. There is less of an antagonistic approach in dealing with the “administration.” The students are doing more constructive things to help better themselves, others and the world. I have seen a change in the way clubs on campus handle themselves and their relationships with other clubs. These clubs are an important part of Oxford’s social atmosphere and that is an important part of the campus. Oxford College has numerous good qualities and I would like to see many more grow and develop. I would especially like to see more community services and services that would bring the faculty and staff together with the students.

I stress Oxford’s “specialness” is tied into a mutual vision of community binding all those who are here and those who have gone together. We must work together to make Oxford better and better. That’s what I and Campus Life are all about.”

The Drama Guild has as its goal the promotion of theater activities on campus by and for students. Each year it sponsors two major plays, occasional one act plays, and its works closely with the Improv group performances at events such as visitation day. The Drama Guild also participates in fall festival and other all-campus club events. This fall the Drama Guild produced The Lesson, the Hot L. Baltimore, and The Red Lamp, a student directed play. In the spring it produced The Rivals another student one-act play.

Oxford College has been a special place for us. We have learned about ourselves and about others. Again and again we wonder what the future has in store for us, but we know that only Time can answer these questions. When we arrived on the Oxford campus, we had to make new friends and learn new ropes. As time has passed we have come to realize how important these friendships that we made are to our lives. During the two years here at Oxford these friendships pulled us through “all-nighters,” tests, exams, and the ever popular “HELL WEEKS.” Without these friendships, one of those nights would have sent us packing home. Oxford is a hard school and the stress from the academics is not to be underestimated.

If Oxford College has given us anything more than good educations, then it is the numerous friendships that were formed here. These are the ties and pulleys that will help sustain us through eternity.

THANKS TO EVERYONE HERE AT OXFORD PAST, PRESENT, AND FUTURE. MAY YOUR WONDERFUL YEARS AT OXFORD NEVER BE FORGOTTEN.

Remember Yesterday, Live Today, Dream Tomorrow
